NEXFENCE
HYBRID POST TECHNOLOGY™

BUILT DIFFERENT. BUILT TO LAST.

This revolutionary "hybrid" base combines a traditional wood top structure with a heavy-duty, non-deteriorating base post that resists moisture, pests, decay, disease, and rotting.

WHAT'S INSIDE MAKES THE DIFFERENCE

TOP
WOOD POST
Traditional strength above ground

SOIL FILL LINE

EXTERIOR
PVC JACKET
Moisture, pest & UV resistant plus landscaping protection

CORE
POLYURETHANE FOAM
Rot, fungal & decay-resistant core

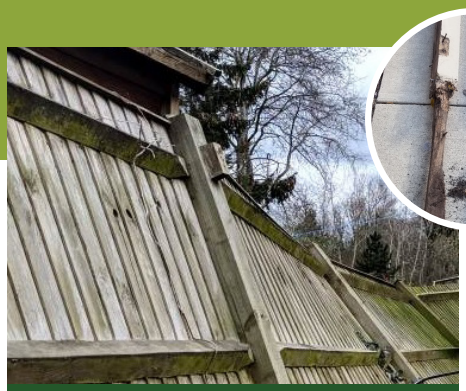

REINFORCEMENT
STEEL REBAR
Heavy-duty load-bearing support below ground

BENEFITS OF NEXFENCE

Engineered for long-term performance, this innovative post solution combines cost-efficiency, structural integrity, and sustainability—all with hassle-free installation and maintenance.

- Simple, cost-effective design
- Durable and structurally sound for long-term peace of mind
- Helps resist fungal growth, moisture, and bug intrusion
- Protection from weed-trimming equipment
- Cost-effective over the long term — no costly repairs
- Streamlined installation as you would standard posts
- Eco-friendly & sustainable
- Low maintenance — set it and forget it!
- 100% sourced and assembled in the USA

MAKE NEXFENCE YOUR LAST FENCE

HELPS PREVENT WOBBLING POSTS

HELPS PREVENT PROPPING POSTS

HELPS PREVENT FENCE FAILURES

ENGINEERED FOR LONG-TERM PERFORMANCE.

By investing in NexFence, you're not just installing a fence—you're eliminating costly replacements, ongoing maintenance, and early degradation common with traditional materials.

Over a 12.5-year lifecycle, the cumulative cost savings result in a return more than triple your original investment.

NEXFENCE EXAMPLES

POST REPLACEMENT ROI OVER 50 YEARS ("LIFETIME")

TRADITIONAL FENCE POSTS

- Cost per Post Installed: $275.00
- Install Rate: 2.5 posts per hour
- Includes: Removal, disposal, digging, setting, concrete, labor, overhead, and margin

NEXFENCE POSTS

- Cost per Post Installed: $67.00
- Install Rate: 5 posts per hour (12 min/post)
- Includes: Handling, digging, setting, concrete, labor, overhead, and margin

12.5 YEAR RETURN ON INVESTMENT: 310.45%

CHOOSING NEXFENCE DELIVERS A 310.45% ROI OVER 12.5 YEARS when compared to traditional fencing systems. This calculation reflects the total cost savings achieved before any post replacement is needed. Here's how we calculated it: ROI = (Traditional Fence Cost – NexFence Cost) ÷ NexFence Cost × 100%

The ROI figures presented are estimates based on historical install data, market assumptions for product and labor costs, and projected performance. Actual results may vary and our not guaranteed. This chart is for informational purposes only and should not be considered financial advice.

THE RESULT: A DURABLE FENCE THAT IS BUILT TO LAST!
