Flexible-lock-system

With easy-to-grip free-turning sleeve for rapid tightening and loosening of screws and nuts

The extensions from the premium lines are also equipped with the unique "flexible-lock-system". By activating this system, attachments can be fixed to the extension permanently - preventing slipping and any unintentional loss of the attachment. When the system is deactivated, the sockets can be attached as usual and changed in a flash.

The fast-rotating sleeve

The free-turning sleeve on the Zyklus Speed and the Zyklus extension effectively accelerates the turning of screws and nuts.
