

PRODUCT SPECIFICATION REPORT

ZEP HI FOAM DEGREASER™

Solvent-Based Cleaner degreaser

DESCRIPTION

A water miscible, solvent based cleaner and degreaser. A unique combination of special high flash solvents, emulsifiers, detergents, coupling agents, foam boosters, water conditioning agents, and builders.

FEATURES

- Water miscible
- Powerful Solvent Action
- Dilutes with Water
- Rinses Film Free
- Built-in Foamer
- Aircraft Approved

BENEFITS

- Actually combines with water at lower dilutions to form a stable mixture.
- Quickly cuts through and dissolves grease, grime, and dirt.
- More economical to use than degreasers that have to be used with solvents only.
- Rinses more freely than ordinary solvent based degreasers. Leaves no difficult-to-remove solvent film or odor on surfaces. Rinsability is unaffected by water hardness.
- Contains special foaming agents. Product can be applied through any air injection-type foamer. Foamer must be compatible with petroleum based solvents. Foam allows solution to cling to vertical surfaces, thus prolonging contact time for increased effectiveness.
- Conforms to all the requirements of Aerospace Material Specification (AMS) 1532. Particularly suited and recommended for cleaning and degreasing exterior aircraft surfaces.

APPLICATIONS

Use as a cleaner for automotive, diesel, aircraft, and marine engines and equipment. Also cleans oil soaked floors, heavy equipment, etc:

Motor Companies
Aircraft Maintenance

Garages
Repair Shops

Transport Companies
Engine Rebuilders and Reclaimers

*Do not use in diesel engines.

COMPANION PRODUCTS

Zep Carb-X, Zep Choke and Carburetor Cleaner, Zep Formula 50, Zep Big Orange, Zep 45, Zepreserve, Zep Dyna 143, Zep Cold Galvanize, Zep Professional Rubberized Coating, Zep Start

SPECIFICATIONS

Physical Form	Liquid	Flash poin (TCC)t	145°F
Odor	Aromatic (strong)	pH	N/A
Color	Red, Orange	Shelf life	1 year minimum
Specific Gravity	.0.95	DOT Shipping Label	N/A

PACKAGING

5 gallon pail
20 gallon container
55 gallon container
