Safe storage and quick overview

The tools sit securely in the foam thanks to precise contour cutouts, but are easy to remove. The carefully designed arrangement of the tools ensures space-saving storage and quick access to each tool.

Two-coloured foam insert

After removing the tool the light grey second foam becomes visible and therefore missing tools are quickly identified.

Fine-tooth design

With its fine toothing with 80 teeth, the Zyklop Comfort ratchet allows a short return angle of only 4.5°.

Plastic coated

The plastic sleeve makes working comfortable and safe even at extremely low or high temperatures.

For small spaces

With its extremely slim design, the Zyklop Comfort ratchet allows easy working even in very confined spaces.

Ball lock

The ball lock ensures sockets and accessories fit securely, providing increased safety during operation. A short press on the release button allows the tool to be changed quickly.

Switch lever

Switch lever for convenient change of direction.

8790 B Impaktor sockets

The Impaktor technology ensures a higher-than-average service life of the Impaktor sockets even at extreme requirements, e.g. for use with electric or pneumatic wrenches.
