PRODUCT SPECIFICATION REPORT

ZEP KWIK-SOLV

Fast Evaporating Industrial Degreaser

DESCRIPTION

Zep Kwik-Solv is a pleasantly scented, solvent degreaser used to remove oils, tars, greases and lubricants from surfaces. This product evaporates quickly and will not leave a residue.

FEATURES

- Effective Degreaser
- Fast Evaporating
- No Residue / No Rinsing
- Versatile
- Non-chlorinated

BENEFITS

- The solvent will quickly penetrate and remove oils, greases and soils from surfaces.
- The solvent will dry rapidly allowing work to continue quicker than water-based solvents or cleaners allow.
- Kwik-Solv does not contain any detergents or builders which can leave a residue on surfaces; the solvent evaporates completely, therefore a water rinse is not required.
- May be used as a degreaser, a contact cleaner, or as an A/C flush. This product may be sprayed on or wiped onto surfaces.
- This product does not contain any chlorinated solvents, such as 1,1,1-trichloroethane, perchloroethylene, or methylene chloride.

NOTE: Precautions must be observed to eliminate sources of ignition for liquid and/or vapors.

APPLICATIONS

Use Zep Kwik Solv to remove oil, grease, dirt, lubricants, and tar from circuit boards, electrical contacts, electric motors, machinery parts and electronic equipment. Recommended to:

Auto Repair Facilities
Equipment Rental

Electrical Contractors
Metal Working Facilities

Air Conditioning Services
Industrial Equipment Manuf.

LEAVES NO RESIDUE

• CONTAINS NO CHLORINATED OR AROMATIC SOLVENTS

DIRECTIONS FOR USE

DANGER: Do not use with or near energized electrical
equipment, such as floor machines, electric motors, etc., unless
equipment is explosion-proof.

As a Contact Cleaner: Disconnect power source prior to
application. Apply liberally to surface. Selig's Sure Shot or
Little Shot Sprayer is ideal for product application. Allow to run
off. Surface will be clean, dry and residue-free very quickly.
When surface is completely dry, unit may be placed back in
service.

As an Electric Motor and Equipment Degreaser: Disconnect
power source prior to application. Brush, spray or immerse
parts or equipment. Selig's Sure Shot or Little Shot Sprayer
may be used to provide effective product application. Wipe or
allow to air dry. When equipment is completely dry and devoid
of solvent vapors, it may be placed back in service.

As an Air Conditioning Flush: Use in conjunction with a
pressurized air conditioning flushing gun to purge oil and dirty
residue from air conditioning lines. Make sure line is completely
dry prior to recharging. This can be accomplished, if necessary,
by compressed, filtered air or nitrogen.

Selig advocates limiting exposure to all chemical products.
Selig strongly recommends wearing tight-fitting safety glasses,
especially when wearing contact lenses. Wear natural rubber,
nitrile, neoprene, or other resistant gloves. Use product in well-
ventilated areas only; open windows/doors and use exhaust
fans in enclosed spaces. Remove contaminated clothing
promptly and DO NOT rewear until thoroughly cleaned. After
handling, wash hands thoroughly with soap and water.

FIRST AID

EYES: Immediately flush eyes with plenty of water for at least
15 minutes, occasionally lifting the upper and lower eyelids.
Get medical attention immediately. **SKIN:** Wash contaminated
skin immediately and thoroughly with soap or mild detergent.
Apply a skin cream. Consult a physician if irritation develops.
INHALATION: Move exposed person to fresh air at once. If
breathing has stopped, perform artificial respiration. Get medical
attention immediately. **INGESTION:** If product is swallowed,
DO NOT induce vomiting. If vomiting occurs, keep head below
hips to prevent aspiration (breathing) of liquid into the lungs.
Get emergency medical attention immediately.

DISPOSAL AND/OR SPILL INFORMATION: As with all
cleaning and maintenance procedures, run-off from the cleaning
or maintenance process should be diverted to a collection
vessel, and not allowed to soak into the ground or to enter
a storm sewer. If this product is spilled or contaminated and
cannot be used, creating the need for disposal, absorb product
on an inert absorbent material and deposit in a clean, sealable
D.O.T. specification container for disposal as a hazardous
waste. Thoroughly clean area with a detergent solution and rinse
area well with water. **EXTREMELY FLAMMABLE:** Keep away
from Heat, Spark, Open Flame, or any source of ignition.

STORAGE: Store in a cool area away from direct sunlight
at temperatures between 40°F (4°C) and 120°F (49°C). Keep
container tightly closed at all times when not in use to decrease
evaporation of volatile solvents.

DANGER!

CONTAINS HEPTANE AND ISOPROPYL ALCOHOL.
EXTREMELY FLAMMABLE LIQUID & VAPOR. VAPOR
MAY CAUSE FLASH FIRE. ELIMINATE ALL IGNITION
SOURCES. CAUSES IRRITATION. VAPOR HARMFUL.
HARMFUL OR FATAL IF SWALLOWED.

Can cause skin and eye irritation or inflammation. Inhalation
of spray mists or vapors may cause respiratory tract irritation
and/or central nervous system depression characterized by
headache, dizziness, nausea, or stupor. DO NOT swallow
this product. DO NOT breathe vapors or spray mist. Exposure
may aggravate existing skin or respiratory disorders. Further
information on the effects of overexposure is included on the
Material Safety Data Sheet, which is available upon request.
