

Annual Notice of Proposition 65 Warning Materials for Online Sales of Agri-Fab Products

To Whom it May Concern:

California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65" or the "Act") requires businesses to provide clear and reasonable warnings to California consumers about products that contain chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. In particular, Section 25600.2 of the Act outlines specific warning requirements for online sales of products that may expose consumers in California to such chemicals.

Agri-Fab, Inc. maintains compliance with Proposition 65 by labeling all of its products with a short-form warning. As an authorized retailer/reseller of Agri-Fab's products, you are responsible for placement and maintenance of these same warning materials on your e-commerce website(s). **As such, we are writing to remind you that all Agri-Fab products sold online must be listed with the following short-form warning:**

This warning must be prominently displayed on the product page in a manner that is easily visible to potential buyers before they complete their purchase, either within the product description or by linking to the warning in a clear and noticeable way.

Failure to comply with these requirements could put your company at risk for legal penalties and fines, as enforced by the California Attorney General's office. If Agri-Fab, Inc. becomes subject to a Proposition 65 violation notice or claim of any kind as a result of your failure to include the above short-form warning on your e-commerce website(s), Agri-Fab will assert this notification as an affirmative defense and demand indemnification from your company.

If you have any questions or need further assistance, please do not hesitate to contact us. Thank you for your prompt attention to this matter.

Sincerely,

Hilary Conner
Vice President of Sales and Marketing
