WHEEL INSTALLATION

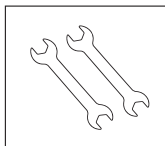

Accessories

Caster

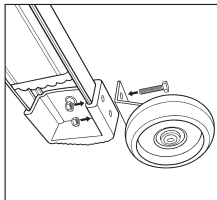

Screw&Nut

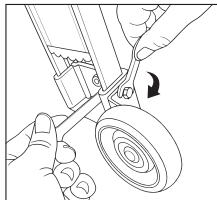

wrench

Installation Steps

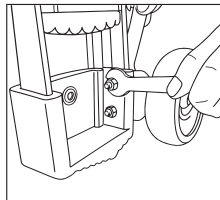

STEP 1

Position the caster at the bottom of the ladder leg. Align the screw holes, then insert the screw through the holes and thread on the nut.

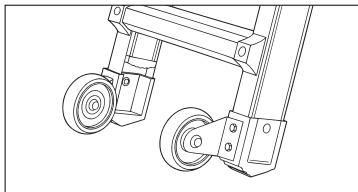

STEP 2

Use a wrench to grip the screw and the nut respectively, and then tighten them.

STEP 3

Install the other caster following the same steps.

STABILIZING BAR INSTALLATION

Accessories

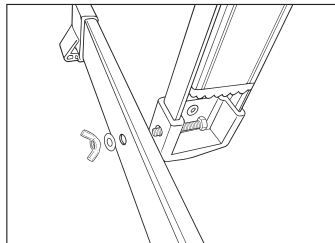

stabilizing bar

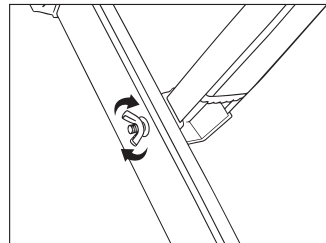

Fixing components

Installation Steps

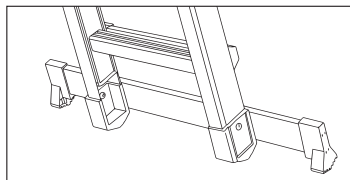

STEP 1

Place the stabilizing bar at the designated position at the bottom of one side of the stepladder. Align the holes and insert the screw.

STEP 2

Put on the round washer, then tighten the wing nut. Install the stabilizing bar on the other side following the same steps.
