

8767 C HF TORX® Zyklop bit socket with 1/2" drive with holding function, TX 50 x 140 mm

| | | | |
|------------------------|---------------|-------------------------------|--------------|
| EAN: | 4013288183606 | Size: | 206x44x24 mm |
| Part number: | 05003856001 | Weight: | 193 g |
| Article number: | 8767 C HF | Country of origin: | CZ |
| | | Customs tariff number: | 82079030 |

- Bit socket (non-impact) for manual or machine tool operations
- The holding function holds screws securely on the tool
- With Take it easy tool finder: colour coding by size
- Knurling on lower end for more grip when used manually.
- Chrome vanadium steel, matte chrome-plated

Bit socket with 1/2" drive and holding function for particularly comfortable screwdriving with reduced risk of losing the screw when feeding it into the workpiece. With Take it easy tool finder with colour coding by size - for quick and easy identification of the required tool .

Bit sockets with holding function for TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Camcar Innovations, Michigan, USA specifications are securely held on the tool!

Take it easy tool finder system

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).

Manual and machine sockets

The manual and machine sockets can be used both for hand and power tools use (non-impact). Users need just one socket set for all applications.

Bit sockets with holding function for TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Camcar Innovations, Michigan, USA specifications are securely held on the tool!
