

2025 CNC PRODUCT GUIDE

DARE TO COMPARE

**THE MOST ACCURATE
ENTRY-LEVEL CNC
MACHINE ON THE
MARKET**

Shown with Optional
Stand and Toolbox.

ICONIC SERIES

- 800W (1.1HP) ER-11 Electro Spindle
- 1/8" & 1/4" ER-11 Collets
- Interlocking Aluminum Table
- Convenient 115V, 15A Power
- Integrated MDF Spoil Board
- Precision Ball Screws On All Axes
- Prismatic Guides On All Axes
- 24V Stepper Motors
- RichAuto B11 3-Axis CNC Controller
- Auto Tool Touch-Off Device
- No Computer Required

RICHAUTO B11
3-AXIS PENDANT
CONTROLLER

**ICONIC-4
24" x 24"**

**ICONIC-6
24" x 36"**

**ICONIC-8
24" x 48"**

**ELECTRO SPINDLE
PERFORMANCE IN
A COMPACT 4-AXIS
MACHINE**

Shown with Optional
Stand and Toolbox.

PRO SERIES

- 2.2 kW(3HP) ER-20 Electro Spindle
- On-Board Liquid Cooling System
- Interlocking Aluminum Table
- Integrated MDF Spoil Board
- Convenient 220V, 10A Power
- Precision Ball Screws On All Axes
- Prismatic Guides On All Axes
- Auto Tool Touch-Off Device
- 48V Stepper Motors
- RichAuto B18 4-Axis CNC Controller
- No Computer Required

RICHAUTO B18
4-AXIS PENDANT
CONTROLLER

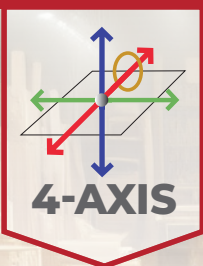

**AR4 ProV6
24" x 24"**

**AR6 ProV6
24" x 36"**

**AR8 ProV6
24" x 48"**

**SERVO DRIVEN FOR
SPEED, ACCURACY
AND LONGEVITY**

Stand and Toolbox Included.

ELITE SERIES

- 2.2 kW (3HP) ER-20 Electro Spindle
- On-Board Liquid Cooling System
- Interlocking Aluminum Table
- Integrated MDF Spoil Board
- Precision Ball Screws On All Axes
- Prismatic Guides On All Axes
- RichAuto B58 Industrial 4-Axis CNC Controller
- Supports Rotary Accessory
- Auto Tool Touch-Off Device
- Servo Driven Axes
- No Computer Required

RICH AUTO B58
4-AXIS PENDANT
CONTROLLER

AR8 ELITE
24" x 48"

AR16 ELITE
48" x 48"

AR25 ELITE
60" x 60"

DSP CONTROLLERS

NO COMPUTER REQUIRED.

A dusty shop environment is no place for a PC. When it comes to controlling a CNC router, a robust DSP (Digital Signal Processor) is the best solution, and the path chosen by nearly every commercial CNC manufacturer.

We've partnered with RichAuto to integrate their world-class hand-held pendant DSP technology into every Axiom CNC machine we build.

- No virus issues
- No software updates.
- No registration challenges
- No failed fans, power supplies or hard drives

A bullet-proof control solution that operates right out of the box.

**A DSP CONTROLLER IS THE
PERFECT CONTROL SOLUTION
FOR YOUR CNC.**

FROM BEGINNERS TO ADVANCED USERS

CNC TRAINING CLASS

Do you have a CNC router and want to unlock its full potential? Do you want to learn more about an Axiom Precision CNC before you buy? Then Axiom training is right for you. From beginners to advanced users, our in-depth training courses will enhance your CNC capabilities. Our CNC classes fully explore 2D, 2.5D, and 3D aspects of Vectric's VCarve and Aspire software, offering a step-by-step explanation of their features. We also offer hands-on experience with our DSP pendant controllers, as well as live demos of our CNC machines and accessories.

WHAT CUSTOMERS ARE SAYING:

Very highly recommended Review by J Gibson

Rating: ★★★★★

"The facilities and instructor were top of the line. Mike was extremely knowledgeable and was very successful in meeting the needs of all the members of the class who had a wide variety of experience and expectations. I knew of Mike's reputation as the best Vectric software trainer before I got here, and he was even better than I was expecting. His ability to meet the varied expectations and needs of all student at once was outstanding. Most productive four days I have spent in years. Within six months, my son will be starting his journey in the CNC arena. I will be sure he will come back to Axiom for training with Mike."

THESE CLASSES WILL INSPIRE YOU TO 'BUILD BETTER STUFF' WITH YOUR CNC.

Axiom removes the 'fear of failure' by providing a host of how-to Tech-tip videos on YouTube as well as both in-person and online software/machine training classes and lifetime customer support via phone and email with our Axiom CNC experts.
