A Quick-Connect Handle Portion

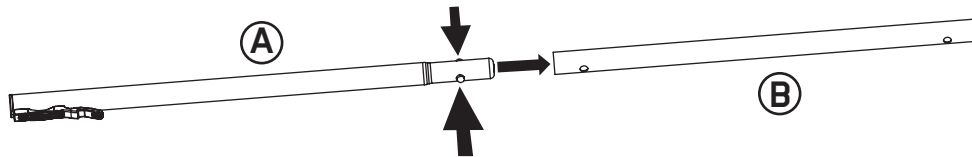

B Center Handle Portion

C Grip Handle Portion

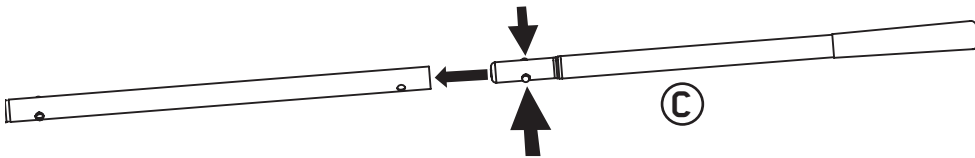

D Rake Head

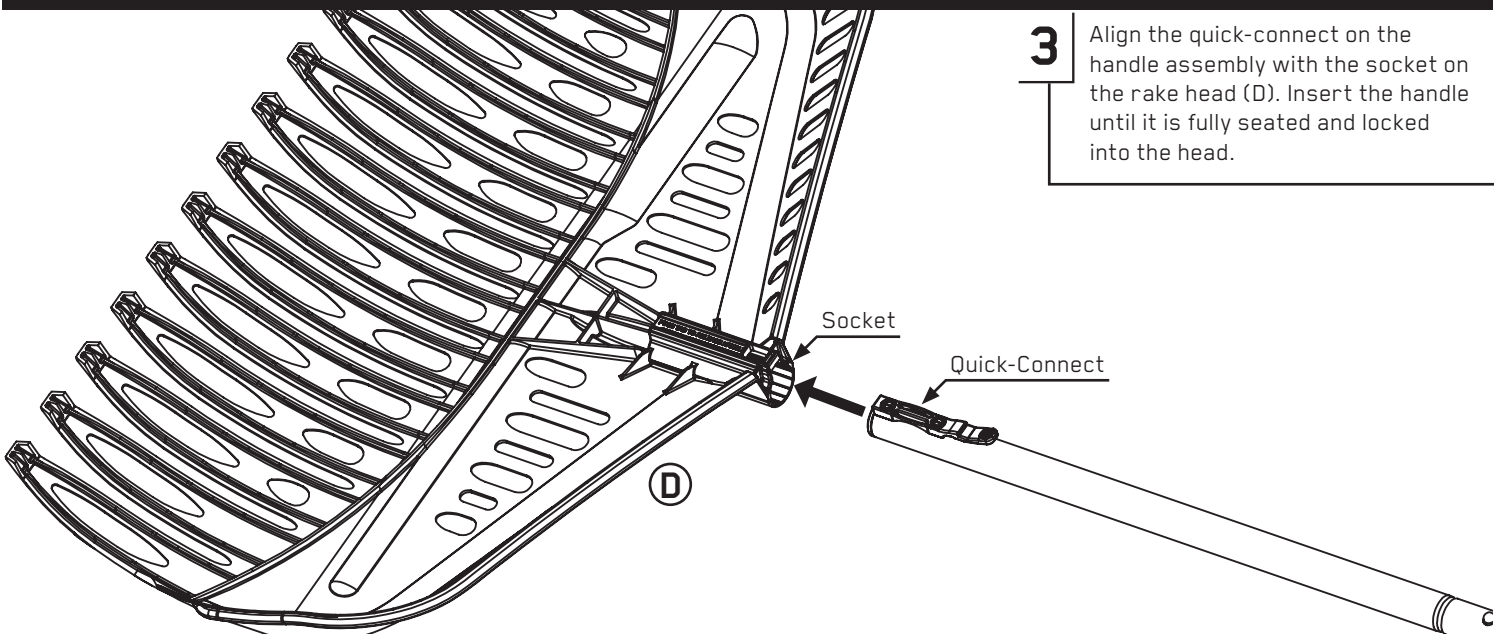

Instructions

1 Press the push buttons on the quick-connect handle portion (A). Insert this handle into the center handle portion (B). Assembly is complete when the push buttons click into place.

2 Press the push buttons on the grip handle portion (C). Insert this handle into the center handle portion assembly. Assembly is complete when the push buttons click into place.

3 Align the quick-connect on the handle assembly with the socket on the rake head (D). Insert the handle until it is fully seated and locked into the head.
