Pallet Jack with Scale

6600 LBS, 48” x 27”

SKU: 555039

PALLET JACK WITH SCALE

Description

The 5Seconds Tyson-750 Pallet Jack with Scale combines heavy-duty material handling with built-in weighing, letting operators lift, move, and weigh pallets in one smooth motion—no separate trip to a floor scale. The integrated digital scale delivers accuracy within 1.1 lbs on a high-visibility LED display, while the 6,600 LBS capacity and 48" x 27" tapered forks handle standard pallet loads with ease. Heavy-duty steel construction with a durable powder coat finish, a reliable BF hydraulic pump, polyurethane wheels, and an ergonomic loop handle ensure smooth, comfortable operation shift after shift in warehouses, shipping docks, and logistics operations.

Product Features

- 6,600 LBS load capacity
- Built-in digital scale
- BF Hydraulic Pump
- 48" x 27" fork size
- Ergonomic rubber handle
- Single polyurethane load wheel
- Polyurethane steering wheels
- Heavy-duty steel construction
