

Security Kiosk Dual Stand for 7-14 Inch Tablets

PAD-UATPB2

Package Contents

(2) Bolts with nut
(2) Screws

Using the holder

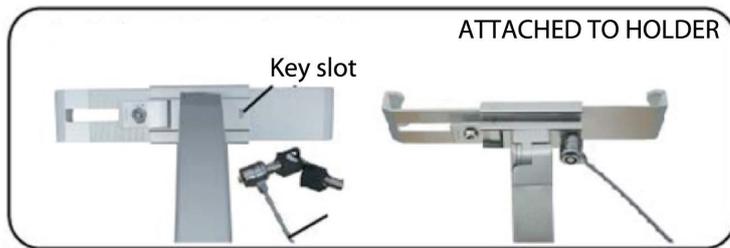

- 1) Place the stand on a flat surface and orient the holder vertically, with the fixed end at the bottom and the sliding end on top.
- 2) Pull back the lock catch at the rear of the holder. Place tablet corner diagonally into the fixed clamp end, then push sliding end down until it is firmly cradling tablet.

- 3) Push the lock catch back in, then turn the key to lock in place.

- 1) Attach cable end to any permanent fixture using loop.
- 2) With key inside, insert lock end to slot on stand base or back of holder.
3. Turn key and remove from lock to attach cable to stand.

Cable management system

Slide protectors over the cable.

Pull cable through tube.

Align protectors so opening is perpendicular to slot openings on tube.
