
VDM SERIES 48"-72" ADJUSTABLE EXTENSION POLE

VDM-A-48-72-BK |

FEATURES & BENEFITS

The VDM Series Ceiling Mounts and accessories are designed with the integrator in mind, providing safe and reliable display mounting with unique features that enable efficient installation and maintenance. The VDM Series 48"-72" Adjustable Pole is compatible with any VDM Series Ceiling Mount and Ceiling Adapter to accommodate ceiling, menu board, and digital signage installations. Designed with a 1.5" NPSM thread on both ends, the pole is also adjustable allowing the height of the display to be tailored between 48"-72" in 1" increments.

- 1.5" NPSM threads on both ends
- 500 lb. weight capacity
- Adjustable 48"-72" pole length
- One pole is required for the VDM Series 1x1 Single-Sided and Back-to-Back Ceiling Mounts; two poles are needed to support the VDM Series 2x1 and 3x1 Single-Sided and Back-to-Back Ceiling Mounts
- Compatible with VDM Series Unistrut, Dual Joist, Truss, I Beam or Cathedral Ceiling Adapters
