

# Indexing conversion kit DADM-CK-65-12

Part number: 548102

**FESTO**

## Data sheet

| Feature                          | Value                                             |
|----------------------------------|---------------------------------------------------|
| Size                             | 65                                                |
| Type code                        | DADM                                              |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress<br>(when installed) |
| Note on materials                | Free of copper and PTFE<br>RoHS-compliant         |
| Plate material                   | Steel                                             |
| Material of screws               | Steel                                             |
