Product Information

Race Sport Lighting's Universal RGB LED add-on Bluetooth controller gives you smart phone capability for all of your favorite Race Sport RGB lights! Use this Bluetooth controller to control multiple zones of RGB or RGB+W LED strips that will be linked and controlled via a Bluetooth enabled smartphone device (One controller required per zone). RGB(+W) strips can be set to one of 12 different preset colors or an infinite amount using the color wheel. The controller can also adjust light patterns, speed, fading, brightness, play/pause functions, sound activation, and the ability to turn the system ON and OFF. The synchronization function allows a single smartphone to operate one or more user configurable controllers as well. Maximum load is 16 feet of continuous strip & 50ft. of non-continuous strip segments per controller. Can only be used with a Bluetooth enabled smartphone or tablet, standalone remotes are not available. Use the free app 'Happy Lighting' on Android or iOS. The driv
