SECTION 4 – FIRE FIGHTING MEASURES		

Suitable Extinguishing Media: Water spray, carbon Dioxide, Foam or Dry Chemical.
Unsuitable Extinguishing Media: None known
Specific Hazards: Avoid producing suspensions of dust during handling and avoid exposure of suspensions to sources of ignition. Suspensions of - 40 mesh particles may explode if exposed to strong ignition sources. Carbon monoxide and carbon dioxide gas may be emitted upon combustion of material Contact with strong oxidizers such as ozone or liquid oxygen may cause rapid combustion.
Protective Equipment and Procedures: In the event of a fire, wear full protective clothing and NIOSH approved self-contained breathing apparatus with full face piece, operated in positive pressure mode.
SECTION 5 – ACCIDENTAL RELEASE MEASURES
Personal Precautions: Handle in accordance with good industrial hygiene and safety practices. These practices include avoiding unnecessary exposure and removal of a material from eyes, skin, and clothing.
Environmental Precautions: The impregnate on this product is water soluble. Dike all entrances to sewers and drains.
Containment & Clean-up: Clean up spills in a manner that does not disperse dust into the air. Avoid introducing materials into waterway.
SECTION 6 – HANDLING AND STORAGE
Precautions for Safe Handling: Avoid dispersion into air. Keep containers dry and closed. Follow good handling and housekeeping practices to minimize spills, generation of airborne dusts, and accumulation of dusts on exposed surfaces. Use with adequate exhaust ventilation to draw dust away from workers' breathing zones. Prevent or minimize exposures to dusts by using appropriate respirators, gloves and eye protection. Wash exposed skin areas thoroughly with soap and water. Use caution when pouring, using pneumatic transport, swirling, etc. as this material can become electrostatically charged and present a dust explosion hazard.
Conditions for Safe Storage: Avoid spilling material so as to avoid creating a dust suspension. Store at ambient atmospheric conditions. Product should be stored in a closed dry container. Maintain good housekeeping procedures. Store away from strong oxidizers such as ozone, liquid oxygen, chlorine, permanganate, etc.
SECTION 7 – EXPOSURE CONTROLS/PERSONAL PROTECTION
ENGINEERING CONTROLS
Provide ventilation if necessary, to minimize exposure. General ventilation is usually acceptable, but local mechanical exhaust ventilation is preferred at sources of air contamination such as open process equipment.
RESPIRATORY PROTECTION
If use conditions generate dust levels above the TLV / PEL, wear a NIOSH-approved particulate respirator or a NIOSH-approved cartridge respirator fitted with dust filters.
SKIN PROTECTION
Wear appropriate dust resistant clothing and gloves.
EYE/FACE PROTECTION
Safety glasses with side shields. If eye contact or dusty conditions are likely, wear dust tight goggles.
