

PRODUCT SPECIFICATIONS

The Defender Safety Face Shield is your choice for full face protection. With its double-sided anti-fog system, it provides users with unclouded vision. A sponge foam is found on the top of the Face Shield for improved comfort and reduced slipperiness. The Shield is made of high-quality PET making it transparent and waterproof. This effectively isolates saliva and protects your whole face from spray, splatter, and droplets. The Elastic band can stretch to adjust to various head shapes and improve comfort during wearing time. With its 180 Degree isolation, it effectively prevents any unidentifiable material from entering. The lightweight and portable feature makes it comfortable for long usage.

Face shield has a foam strip and an elastic band to improve comfort and suit various head shapes and sizes. Full-length size provides more complete coverage than typical face shields. Wrap-around design provides over-the-top, side, and front protection.

Anti-fog coating for maximum visibility

Transparent Waterproof PET

Sponge foam to minimize slippage

Full length size for maximum coverage

Durable and easy maintenance
