

Keeping Students and Faculty Connected, Productive, and Informed

Students and faculty rely on mobile devices to keep up with class assignments and schedules, communicate with each other, and stay informed about campus alerts. KwikBoost provides powerful mobile charging solutions to keep students and faculty connected and continuously learning.

“

We are very excited to offer this service to our students! We think KwikBoost has an impressive product that works well across our campus.

KwikBoost EdgePower

Free students and faculty from wall outlets and extension cords. EdgePower's portable charging stations bring reliable, cord-free power for laptops, tablets, and more right to desks, tables, and beyond.

Ideal Use Cases:

Classrooms

Outdoor classrooms

Libraries

Courtesy Charging Stations

Provide an easy and convenient way for students and staff to keep their personal devices charged up. Compatible with all popular phones and tablets, recharging a dead battery is as simple as grabbing a cord and plugging in.

Ideal Use Cases:

Hallways and common areas

Cafeterias

Faculty breakrooms

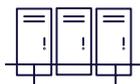

Courtesy Charging Lockers

The perfect solution when people need secure charging for their devices. Featuring an intuitive, self-serve keypad, the user simply chooses a locker, creates a PIN code, and walks away knowing their phone, tablet, or laptop is safe.

Ideal Use Cases:

Gymnasiums

Locker Rooms

Auditoriums

Courtesy Charging Hubs

Designed to fit on shelves, counter tops, and end tables, a charging hub keeps a small footprint while delivering fast charging for up to four devices.

Ideal Use Cases:

Libraries

Front offices and reception desks

Faculty breakrooms
