

Studio Modular Wall

Enhanced privacy that adapts to your needs today, and tomorrow.

Designed for enhanced privacy in today's busy offices, the Studio Modular Wall from Luxor gives you the freedom to create functional, restorative spaces that support the ways your team works.

Peace and quiet can be hard to find -- particularly with changing work environments. That's why Studio was designed with advanced noise reduction technology and easy setup for effortless adaptability to your team's unique and evolving workflow. Featuring modular components and high-quality panel options that deliver full coverage, Studio lets you create flexible spaces with added privacy—from quiet, independent workspaces to nondisruptive meeting rooms.

Wherever and however you like to work, Studio helps you create a workspace for enhanced concentration and well-being.

Benefits:

Enhanced Privacy:

Full coverage, noise reduction, and an aesthetically pleasing design provide a comfortable and private workspace to concentrate.

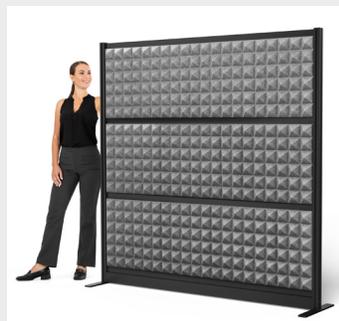

Advanced Sound Absorption:

Pyramid-shaped sound absorption panels help eliminate standing waves and flutter echoes, with an NRC greater than industry standard 0.85.

Quality Engineering:

With a simple setup and lightweight, yet durable frames, Studio Walls are built to last in demanding work environments. And without the need for installation or tools, Studio can be rearranged with ease.

Specifications - Available in two unique styles:
