

# Triple 4K Display Docking Station

## Simplify Your Setup with One-Cord Connectivity

The SideTrak® Triple 4K Display Docking Station boosts your productivity by supporting up to three 4K monitors for stunning visual clarity. With multiple ports, including USB, Ethernet, and audio, connecting your essential accessories like keyboards, mice, and speakers is effortless. Enjoy a clutter-free workspace with our streamlined one-cord connection and reliable power delivery to keep your device charged. Perfect for professionals with two or more monitors, this docking station creates an organized and efficient work environment.

### Multifunctional Workspace

Perfect for managing multiple projects, this docking station connects to three 4K monitors, so you can have different screens for various tasks to help enhance productivity and organization.

### Unmatched Connectivity

With 13 ports and triple 4K monitor support you can achieve ultimate connectivity. Keep your external drives and gadgets plugged in without the constant hassle of swapping cables.

### Enhanced Efficiency

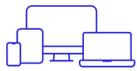

Enjoy high-speed power delivery for uninterrupted and smooth operation. Focus on what matters most without any slowdowns.

### Seamless Connection

Eliminate clutter with one simple cord connection. The sleek design maintains an organized and practical workspace.
