- Base weighted for extra stability, adjusts to various heights, angles and rotates

  Reduces eye and neck strain by elevating paper off the work surface
- Copyholder can be used on both sides of the monitor or in front, allows documents to be moved closer to user

Features:

KellyREST Brand - Copy Holder is based weighted for extra stability. Curved tray reduces overhead glare and improves site lines. Extra wide paper ledge holds over fifty sheets of paper. Adjustable horizontal line guide eliminates text and keeps documents in place while in use. The many ergonomic adjustments include height range of six inches, rotates 360 degrees, tilts to a variety of angles. Can be positioned on either side of the monitor or even in front if space permits. Rear copy clip and pencil holder keeps stapled or folded items from falling off the tray surface. Spring assisted see through line guide provides immediate visualization of document location while typing. Line guide can be positioned on either side of the tray as well as the copy clip. The sturdy base keeps the copy holder in place while in use. Made of durable plastic. Product size is 16"H x 9"W x 6"D. Product Weight 3.35 lbs. Color Black.
