- Meets ANSI/BIFMA standards made in the USA with up to 61% recycled content

Features:

KellyREST Brand - Standard Keyboard Tray with Mouse Platform and Lever less Lift N'Lock™ offers a variety of height adjustments from 2.25" above desk and 6" below the mounting track with a overall range of 8.25". Includes easy to view dial, tilt and height indicator gauge allows for a multitude of different height and angle adjustments as you turn the control knob. Capable of locking into a permanent position if desired. Positive or negative lockout option keeps the tray in a comfortable position to the user's choosing, -15° to +10° range provides greater ADA compliance. Ergonomically advance design with a 5.5" mounting arm allows the user to be closer to the desk or parallel with the work surface. Low profile design, friction free 22" deep mounting track allows the tray to be stored conveniently under the desk offering plenty of leg room. Swivel option allows the mounting arm to move left or right up to 360° degrees (if room permits). Soft to touch Lycra material covers the memory foam wrist rest and removable half moon mouse pad with Aegis™ Anti-Microbial protection and is easy to clean. Meets or exceeds ANSI/BIFMA standard. Assembly and installation required with all mounting hardware included. Made with up to 61% recycled content. Product weight 13.5 lbs. Limited life time warranty on arm unit. Made in the USA. Color finish Black.
