- 18 Hand Protection
- 24 Eye Protection

WHY CHOOSE
KIMBERLY-CLARK PROFESSIONAL*
SAFETY AND INDUSTRIAL
SOLUTIONS?

Because we offer protection and comfort without compromise – to safeguard workers, their environments and work processes. Our full range of personal protection products are designed to meet the needs of virtually any facility, while enhancing efficiency and performance. We offer something that our competitors do not: a way to divert used gloves, apparel and eye protection from the landfill. Turn to our trusted, quality brands to enhance safety, compliance and sustainability in your workplace.

Symbols Key	TAA Compliant
 Product complies with the Trade Agreements Act	Complying with the Federal Acquisition Regulations (FAR) is something that is top of mind for all Federal Government employees. One of the key elements and most easily missed elements of the FAR is the reference to the Trade Agreements Act (TAA), meaning products must be manufactured or “substantially transformed” in a “designated country.” Kimberly-Clark has developed a full line of TAA compliant protective apparel that provides you with the peace of mind and reassurance that you are purchasing product that complies with the Trade Agreements Act.
 Vending Machine Ready	
 RightCycle by Kimberly-Clark Professional*	
 Paint & Composite Compatible	

WHAT IS **RIGHTCYCLE** BY KIMBERLY-CLARK PROFESSIONAL*?

The RightCycle Program is a groundbreaking service that enables you to collect previously hard-to-recycle items, such as Kimberly-Clark Professional* nitrile gloves, safety eyewear, and single-use apparel items, and have them turned into new consumer goods. Through this program, you can:

- 🔄 Reach your organization's sustainability goals
- 🔄 Divert waste from the landfill in support of zero waste to landfill initiatives
- 🔄 Give your used nitrile gloves, safety eyewear, and single-use apparel items a new life by aiding in the creation of new consumer goods like flower pots, patio furniture, and plastic shelving
- 🔄 Reduce your waste disposal costs
- 🔄 Protect the planet for future generations

Look for this symbol to see which products are eligible for recycling.

KLEENGUARD[®] BRAND APPAREL

Move in Comfort

KleenGuard[®] Apparel delivers comfort without compromise – enabling workers to move freely while staying protected in garments that are engineered to withstand workplace stresses. And, unlike our competitors' products, used KleenGuard[®] Apparel doesn't have to end up in a landfill. You can recycle them with RightCycle by Kimberly-Clark Professional[®]. This groundbreaking service enables you to turn previously hard-to-recycle items, such as Kimberly-Clark Professional[®] nitrile gloves, safety eyewear and single-use apparel, and have them turned into new consumer goods.

KleenGuard[®] Brand Levels of Protection

A20 BREATHABLE PARTICLE PROTECTION APPAREL

*Designed to move with you while
protecting against non-hazardous
and hazardous dust*

KleenGuard[®] A20 Coveralls meet the
EPA Agricultural Worker Protection
Standard (WPS) requirements for
"coveralls"

IDEAL FOR USE when workers are in
nonstop contact with dirt and grime such as:

- Laboratories
- Remediation
- Heavy dust environments
- Pesticide application

The KleenGuard[®] A20 offers superior particle holdout
coupled with unmatched comfort attributes to give
workers protection without sacrificing comfort. The
A20 fabric is five layers of stacked barrier protection
(SMMMS) against hazardous particles.

FEATURES

- **Move in Comfort** — Reflex[®] Coverall Design
offers excellent fit and freedom of movement
- Lightweight and breathable
- Seamless front provides more protection
in the primary exposure area
- Passes NFPA 99 for antistatic materials
- Serged seams

Available in White and Blue
Denim — a great way to visually
separate processes in your facility

ISO 16602: 2007 is an international standard that
establishes minimum performance classifications
for protective clothing. Select KleenGuard[®] families
have been tested to ISO 16602 Type 5 and Type 6.
Type 5 (EN ISO 13982-1) denotes protection against
solid particulates and Type 6 (ISO 16602) denotes
limited protection against liquid spray.

Superior Particle Holdout

A30 BREATHABLE SPLASH & PARTICLE PROTECTION APPAREL

Designed to move with you while protecting against hazardous dry particles, aerosols and non-hazardous light liquid splash

IDEAL FOR USE when workers are in nonstop contact with dirt and grime where light splashes exist, such as:

- Pressure washing
- Powder painting
- Pharmaceutical research
- Fine-particle contamination
- Aerospace
- Maintenance/general manufacturing
- Aerosolized spray painting

KleenGuard[®] Apparel SMS Fabric:

Outer Layers – Cloth-like, yet tough and abrasion-resistant spunbond polypropylene

Middle Layers – Intricate web of micro-fibers that filter out many water-based liquids and dry particulates

FEATURES

- **Move in Comfort** — Reflex[®] Coverall Design offers excellent fit and freedom of movement
- Strong and abrasion-resistant
- Filters out many water-based liquids and dry particles
- Seamless front provides more protection in the primary exposure area
- Passes NFPA 99 for antistatic materials
- Serged seams

A45 LIQUID & PARTICLE PROTECTION + PAINT PROTECTION APPAREL

Designed to move with you while protecting in work environments where hazardous or non-hazardous contaminants may be present

IDEAL FOR USE in surface prep and paint application areas where isocyanate¹ and chromate dust protection is mandated.

Made with lighter-weight fabric than KleenGuard[®] A40 Liquid and Particle Protection suit allowing for improved comfort without sacrificing protection.

Designed specifically for the Surface Prep and Paint area in mind, KleenGuard[®] A45 allows more freedom of movement and less restriction allowing the worker to complete the job without modifying the garment.

FEATURES

- **Move in Comfort** — Reflex[®] Coverall Design offers excellent fit and freedom of movement
- Protects against isocyanates¹
- Protects against chromate dust
- Silicone-free²
- Passes NFPA 99 for antistatic materials
- Respirator fit hood design
- Water-resistant zipper
- Serged seams

SAVE 20% IN 60 DAYS

See back cover for details

KleenGuard[®] A45 Fabric Liquid Chemical Resistance Test

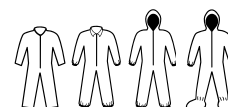

Chemicals	Test Method	Results
Isocyanate paint 40%	F903 Method D	Pass
Chromated epoxy corrosion primer 10%	F903 Method D	Pass

Reference the Technical Data Guide for current liquid chemical resistance information at www.KCProfessional.com

Paint & Composite Compatible:

Kimberly-Clark has developed the A45 line to be a suitable garment for painting and composites. This line of garments can withstand isocyanate paint and chromated epoxy corrosion primer.¹

A60 BLOODBORNE PATHOGEN & CHEMICAL PROTECTION APPAREL

Designed to move with you, offering protection in work environments where contact with blood, bodily fluids and bloodborne pathogen hazards are present

Recommended by
American Biorecovery
Association

IDEAL FOR USE when workers may come into contact with bloodborne pathogens in:

- Crime lab
- Emergency medical response
- Crime scene cleanup
- Forensics and animal research

This protective coverall is made from a seven-layer fabric. The tough outer layers protect the film barrier from tearing and abrasion.

FEATURES

- **Move in Comfort** — Reflex* Coverall Design offers excellent fit and freedom of movement
- Passes ASTM F1670/F1671 testing for penetration of blood, bodily fluids and bloodborne pathogens
- Seamless front to provide more protection in the primary exposure area
- Taped storm flap
- Passes NFPA 99 for antistatic materials
- Serged seams

ISO 16602: 2007 is an international standard that establishes minimum performance classifications for protective clothing. Select KleenGuard* families have been tested to ISO 16602 Type 5 and Type 6. Type 5 (EN ISO 13982-1) denotes protection against solid particulates and Type 6 (ISO 16602) denotes limited protection against liquid spray.

A65 FLAME RESISTANT APPAREL

Designed for protection against non-hazardous and hazardous dust in areas where exposure to sparks is possible

IDEAL FOR USE when workers may be exposed to sparks; in environments, such as:

- Oil refining
- Utilities
- Welding processes
- Grinding processes

KleenGuard[®] A65 is breathable with a high moisture vapor transmission rate to be worn comfortably over reusable flame-resistant garments.

- Flame-resistant and compliant with NFPA 701 FLAME PROPAGATION TEST (1999 edition)
- Complies with flame resistance requirements cited by paragraph 6.1 of CAN/CGSB-155.2-2000
- Passes NFPA 99 for antistatic materials
- Design meets ANSI/ISEA 101-1996 sizing standard
- Serged seams

Do not use for fire protection. Avoid open flame or intense heat. KleenGuard[®] A65 garments do not provide thermal insulation/protection.

A70 CHEMICAL SPRAY PROTECTION APPAREL

Designed to move with you, offering protection in environments where contact with hazardous chemicals are present

IDEAL FOR USE when workers may come into contact with hazardous chemicals, as in:

- Hazardous waste remediation
- Environmental cleanup
- Petrochemical/oil refining
- Acid/caustic handling
- Biohazard cleanup
- Tank cleaning
- Pharmaceutical manufacturing

KleenGuard* A70 is polyethylene-coated fabric which is resistant to many water-based liquids, greases and oils, and liquid chemical splashes.

- **Move in Comfort** — Reflex* Coverall Design offers excellent fit and freedom of movement
- Wick-away lining for enhanced comfort
- Liquid-resistant, extra-long zipper
- Taped, sealable zipper flap
- Seamless front for more protection in the primary exposure area
- Bound seams
- Passes NFPA 99 for antistatic materials

WARNING: Fabric passes penetration testing; however, the chemical is a known or suspected carcinogen or skin absorbed toxin.

More chemicals have been tested and are available on the Technical Data guide at www.KCProfessional.com.

A71 CHEMICAL PERMEATION & LIQUID PROTECTION APPAREL

Designed to protect against chemical permeation and liquid jet spray; with sewn and taped seams, it helps protect workers from a wide-range of potentially harmful chemicals

IDEAL FOR USE when workers come into contact with chemicals for a prolonged period of time and need additional taped seam protection:

- Low pressure industrial cleaning and maintenance
- Hazardous waste remediation
- Environmental and biohazard cleanup
- Tank cleaning

FEATURES

- CE Type 3, 4, 5 (ENISO 14605: 2005 and ENISO 13982-1: 2004)
- Composed of tear resistant, durable film laminate
- Sewn and taped seams offer a strong liquid-tight barrier
- Elasticized hood, cuffs and waist designed for improved comfort and safety
- VELCRO® Brand storm flap for improved protection around the zipper
- Storm-flap height and hood designed for easier taping to a respirator

A80 CHEMICAL PERMEATION & JET LIQUID PROTECTION APPAREL

Designed to move with you, offering protection in environments where contact with hazardous chemical vapors may be present

IDEAL FOR USE when workers may come into contact with hazardous chemical vapors, such as:

- Chemical handling/mixing/cleanup
- Hazardous material handling
- Hazardous waste cleanup
- Industrial Hazmat teams
- Petrochemicals
- Utilities

KleenGuard® A80 is made of Saranex® 23-P Film laminated to a durable fabric which provides a soft cloth-like feel against the skin.

- **Move in Comfort** — Reflex* Coverall Design offers excellent fit and freedom of movement
- Saranex® 23-P Film laminate
- Taped, sealable zipper flap
- Liquid-resistant, extra-long zipper
- Seamless front provides more protection in the primary exposure area
- Respirator-fit hood design for compatibility with complementary PPE
- Taped seams

EYE PROTECTION

Kimberly-Clark Professional offers safety eyewear for different work environments and a variety of different tasks.*

Standards

- **ANSI Z87.1:** The American National Standards Institute (ANSI) is a private not-for-profit organization that aims to enhance the global competitiveness of U.S. business and the American quality of life by promoting and facilitating voluntary consensus standards and conformity. With ANSI Z87.1, ANSI establishes the requirements for the design, construction, testing, and use of eye protection, including standards for impact and penetration resistance.
- **CSA Z94.3:** The Canadian Standards Association (CSA) is a not-for-profit, membership-based association in Canada that develops standards that address needs such as enhancing the public safety and health. The CSA Z94.3 standard relates to eye and face protectors for industrial and educational processes, outlining the performance requirements against hazards such as: flying particles/objects, heat/sparks, chemical splashes, molten metal, UV, visible and infrared radiation.
- **CE Standards:** CE is a mandatory European product marketing and certification system that indicates whether or not the product complies with all applicable European product safety, health and environmental requirements. The EN166 standard establishes basic technical requirements for eye and face protection. Within the EN166 standard, there are numerous levels of

compliance, depending on the end use of the piece of equipment in question. There are additional standards applied, based on the product type and use. Other CE standards address optical and non-optical test methods for the EN166 performance requirements.

Other Governing Bodies

- **OSHA:** Occupational Safety and Health Administration (OSHA) is an agency of the United States Department of Labor. Their mission is to prevent work-related injuries, illnesses, and deaths by issuing and enforcing standards for workplace safety and health.
- **ISEA:** The International Safety Equipment Association is the trade association in the United States for companies that manufacture safety and personal protective equipment and is an ANSI-accredited standards-developing organization. ISEA works closely with safety equipment manufacturers, test labs, subject matter experts, end-users, and government agencies with the objective of protecting workers worldwide.

V100	IRUV Protection Safety Goggles <i>Protect from IRUV light during tasks like medium cutting or brazing</i>
V90	Shield Protection Safety Goggles <i>Provide full eye and face protection from splash without the hassle of primary eye protection underneath a face shield</i>
V80	Splash Protection Safety Goggles <i>Protect from splash hazards</i>
V70	Particle Protection Safety Goggles <i>Protect from dust and/or fine dust hazards</i>
—	Smith & Wesson® Safety Glasses <i>Stylish and comfortable protection with a range of options for workers to exhibit their individuality in the workplace</i>
V60	Corrective Safety Glasses <i>Stylish and comfortable protection with integrated vision assistance solutions for workers requiring corrective lenses</i>
V50	Shielded Safety Glasses <i>Select styles offer flexible protection that enhances dust/particle protection</i>
V40	Premium Safety Glasses <i>Protection that takes style and comfort to the next level – a range of options for the workforce that requires the next level of style comfort</i>
V30	Nemesis® Safety Glasses <i>Offers stylish comfort and lasting protection with a range of options for managers to outfit their workforce with protective eyewear</i>
V20	Economy Safety Glasses <i>Economy protection designed to provide comfort during extended use</i>
V10	Visitor Safety Glasses <i>Visitor protection designed to accommodate a wide range of people</i>

Symbols Key

Meets the optical requirements of the ANSI Z87.1 standards

Meets the impact protector requirements of the ANSI Z87.1 standards

Meets the ANSI Z87.1 requirements for liquid splash/droplet protection

Meets the ANSI Z87.1 requirements for dust protection

Meets the ANSI Z87.1 requirements for fine dust protection

Certified to meet the impact, ignition/flammability, coverage, and optical requirements of the CSA Z94.3 standards

Meets the impact, ignition/flammability, coverage, and optical requirements of the CSA Z94.3 standards

Lenses are made of a polycarbonate material that provides 99.9% UVA/UVB/UVC protection

Product complies with the Trade Agreements Act

Number denotes the base curve of the eyewear; a higher base curve provides more wraparound protection and peripheral vision, and can reduce the need for side shields

SELECTING THE RIGHT EYEWEAR

Color ³	Visible Light Transmittance ⁴	Description	Environment
 Clear	100-85%	Allows maximum visible light transmission	Indoor
 Amber/Yellow	91-74%	Light-gathering properties for low-contrast areas	Low Light
 Light Blue	70-55%	Provides enhanced contrast	Indoor
 Gradient Smoke	68-62%	Lenses are darkest at the top and progressively become lighter to protect eyes from the sun while allowing greater visibility at the bottom of the lens.	Outdoor
 Indoor/Outdoor	66-45%	Move from indoor or shaded conditions to outdoor	Indoor/Outdoor
 Orange	56-52%	Light-gathering properties for low-contrast areas	Low Light
 1/2 Shade	50-45%	1/2 way between clear and smoke tint	Indoor/Outdoor
 Copper Blue Shield	40-34%	Filters out blue light for enhanced contrast	Outdoor
 Teal	37-33%	Provides enhanced contrast	Indoor
 Bronze	26-20%	Provides visual definition with increased contrast	Indoor/Outdoor
 Smoke	25-8%	Worn on bright, sunny days to provide glare reduction	Outdoor
 Metallic Rainbow	20-16%	Amplifies color contrast with outdoor metallic finish coating	Outdoor
 Brown Polarized	18-22%	Brown-tinted lenses with embedded polarized technology effective for filtering scattered blue light to improve depth perception and contrast	Outdoor
 Smoke Polarized	18-22%	Smoke-tinted lenses with embedded polarized technology for optical clarity and to help reduce the glare of reflected light, eye stress, and eye fatigue	Outdoor
 IRUV Shade 3.0	18-8.5%	Protects against infrared (IR) and ultraviolet radiation (UVA/UVB)	Light Cutting/ Brazing
 Red Mirror	17-33%	Smoke-tinted sunglasses with outer red-mirror finish coating	Outdoor
 Silver Mirror	16-7%	Silver-tinted sunglasses with outer silver-mirror finish coating	Outdoor
 Smoke Mirror	16-7%	Smoke-tinted sunglasses with outer mirror finish coating	Outdoor
 Blue Mirror	16-3.5%	Smoke-tinted sunglasses with outer blue-mirror finish coating	Outdoor
 Metallic Blue	15-11%	Amplifies color contrast with metallic-finish coating	Outdoor
 Mirror	13-9%	Outer silver-mirror finish coating	Outdoor
 Green Mirror	13-9%	Smoke-tinted sunglasses with outer green-mirror finish coating	Outdoor
 Gold Metallic	13-9%	Smoke-tinted sunglasses with outer mirror finish coating	Outdoor
 Brown	12-8%	Worn on bright, sunny days to provide glare reduction	Outdoor
 IRUV Shade 5.0	3.16-1.18%	Protects against infrared (IR) and ultraviolet radiation (UVA/UVB)	Medium Cutting/ Brazing

Lens Type Selection

Uncoated	For economical budgets and fewer uses
Hardcoated	For scratch resistance and longer life
Anti-Fog	For humid environments and temperature variances

³ Actual lens colors may vary according to each style

⁴ A range is provided, as % visible light transmittance (% VLT) may vary by style

These devices are tinted for comfort and style only, and the transmittance is reported for information on "darkness" of the lens only. Unless the product is marked as such, these are not tested to the ANSI Z87 requirements for visible light protectors.

- Temple bars can be interchanged with head strap (included) when a closer, more secure fit is required
 - Removable foam lining provides long-term comfort and helps to seal out dust and debris
 - Superior anti-scratch coating prevents scratches that could impair vision and increases lens longevity, passing the EN 166 "K" mark test for resistance to surface damage by fine particles
 - Anti-fog coating and ventilation from cushioned brow bar provide premium anti-fog performance for worker efficiency and safety, passing the EN 166 "N" mark test

Epic* Safety Eyewear • Pairs/Box: 12

Code	Lens	Coating	Frame
33345	Clear	Anti-Fog	Black & Red
33347	Indoor/Outdoor	Anti-Fog	Black & Red
35327	Smoke	Anti-Fog	Black & Red

Temple bars can be interchanged with (included) head strap when a closer, more secure fit is required

Product Features

- Temple bars can be interchanged with head strap (included) when a close, more secure fit is required
- Flexible foam gasket provides long-term comfort and helps to seal out dust and debris
- Premium anti-fog coating and direct ventilation at top and bottom of eyewear provide superior anti-fog performance for worker efficiency and safety. The eyewear remains fog-free for more than twice the amount of time needed to pass the EN 166 "N" mark test for fog resistance
- Superior anti-scratch coating prevents scratches that could impair vision and increases lens longevity, passing the EN 166 "K" mark test for resistance to surface damage by fine particles

OTG* Safety Eyewear • Pairs/Box: 12

Code	Old Code	Lens	Coating	Frame
20746	3015022	Clear	Anti-Fog	Black
