

# WHEEL MASTER **DigiROLLER™ PLUS III**

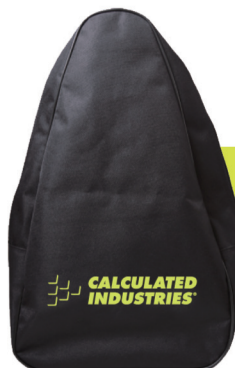

## DIGITAL MEASURING WHEEL

The **DigiROLLER PLUS III** can measure and calculate length, width, height, area and perimeter, including circular calculations. Measures up to 9,999,999 meters, yards, feet or inches. Rugged handle-mounted controls with large glove-friendly TrueTac™ buttons mean no stooping, bending or squinting.

- Easy-to-use handle-mounted controls with 7-digit backlit display
- 99.5% accuracy
- Measure length, width, height, area and perimeter, including circular calculations
- Area measurements include acres and hectares
- Center-line design for balance and accuracy
- Built-in carrying handle for easy portability
- Sealed, gear-driven transmission for durability
- Convenient, sturdy flip-down kickstand

- Heavy duty 32 cm diameter wheel for smooth rolling on all types of terrain
- Folds to half size (from 105 cm to 560 cm) for easier storage
- High-visibility green and reflective tape for safety
- Includes carrying case, 9V battery and 2-year warranty

**Great for:** General Contractors, Estimators, Paving and Concrete Contractors, Surveyors, Landscapers

Includes  
Backpack  
Carrying  
Case
