## The Original MULI-PUIPIPSE DAILL BIT

Resharpen by grinding the two flat surfaces*

Special negative back grinding enables the tip to bore with a filing action, not cutting

Chrome vanadium steel shank for enormous strength and flexibility

Ideal for cordless drills, corded drills and drill presses

Available in an assortment of sizes and sets
H) Naver

Jmproved! - bottom parabolic flute for faster waste removal

The blend and high tech bonding of cobalt and tungsten carbide allows bit to withstand temperatures up to $2000^{\circ} \mathrm{F}$

No center punch needed, eliminates walking

Outlasts regular carbide tipped bits

## Drilling Instructions

| MATERIALS | DIRECTIONS | RPMs |
| :---: | :---: | :---: |
| Concrete Slab <br> Concrete Block <br> Masonry and Brick | With or without percussion - if you run into rebar, continue drilling at high speed without percussion | 1,000+ |
| Granite/Stone | With percussion | 1,000+ |
| Marble | Not necessary to punch or score - use moderate pressure - with or without percussion | 1,000+ |
| Ceramic Tile | Not necessary to punch or score - moderate pressure - no percussion | 1,000+ |
| Porcelain | Use ARTU's Porcelain Tile Bit refer to our website: artu.com |  |
| Baked Ceramic | Slow speeds - liquid coolant | 300-500 |
| Glass/Crystal and Mirror | Liquid coolant - slow speed light pressure - manual hand drill recommended or slow speed on variable speed drill | 300-700 |
| Hard Wood | Hand drill or drill press | 800-1,500 |
| Soft Wood | Hand drill or drill press | 1,500+ |
| Plastic <br> Plexiglass | Hand drill or drill press slow speed - light pressure | 300-500 |
| Cast Metal | Hand drill or drill press | 2,000+ |
| Hardened Steel | Drill press only | 2,000+ |
| Grinding Wheel | Use to sharpen drill bit | Full speed |

Please be advised that ARTU Multi-Purpose Drill Bits are not recommended to be used on mild steel, i.e., angle iron, galvanized pipe, copper, aluminum, brass, stainless steel, etc. Instead, use ARTU's HSS or Cobalt Drill Bits. Refer to artu.com.
