Premium. Flexible. Safe.

The Safe-Flex Floor System is a premium, flexible and safe modular industrial flooring solution that solves challenges faced by many organizations.

The patented Compression Flex construction provides the industry's top anti-fatigue support. The floor system can be custom fit or purchased in ready-made standard kits. The anti-slip varieties work in wet or even oily environments, and bevelled edges ensure that workplace slips, trips and falls are greatly reduced. The ESD and anti-microbial options provide additional environmental control. All matting options are impervious to most chemicals and are class 1 fire resistant. Tiles are sustainably produced using recycled materials and feature world class connection lugs that will last beyond the competition's. A Safe-Flex Floor System works as hard as you do to protect your most important asset—your employees.
