

# Toilet Plunger – Plastic

## DESCRIPTION

**Black Swan Toilet Plunger - Plastic** is a light weight professional strength plunger designed to tackle tough clogs in high-efficiency, low-flow, and standard toilets. The unique design and pliability of its force cup makes this plunger effective in clearing clogs. Has greater air capacity than a typical rubber plunger releasing a stronger push while plunging. The Ribbed handle design allows for a better grip. **Black Swan Toilet Plunger - Plastic** has a 20-1/2" non-absorbent polyethylene plastic handle. For best results, we recommend covering other sink openings or vents.
