Description

Version:
Robust drill design and optimised special point geometry for the **best possible chip formation and reliable chip breakage** with **higher feed rates at the same time. Advanced micro-geometry, convex** cutting edge and **relieved cone**to provide additional stability for the main cutting edge. **Optimised flute geometry and patented face geometry** for **reliable chip evacuation** in steel materials and cast material. **High-performance coating** of the latest generation.
Note:
Flute length $L_c = L_2 + 1.5 \times D_c$.
HB and HE shanks are available at the same price as HA.
HB shanks: order with **No. 122762**.
For **HE shanks:** use order **No. 122761 + 129100HE**.
