

File set with 2-component handle, 5 pieces in a tool roll, Cut 3, Length without tang: 250mm

Order data

Order number	517426 250
GTIN	4062406122324
Item class	52A

Description

Version:

The blanks are forged and ground; manufactured with an exact cut of even density and depth using special machines. These **non-convex files** have tooth profiles appropriate to each grade of file.

To protect the files, the set is arranged in a **strong transparent roll-up nylon wallet**.

Protected files cannot be contaminated and the cut is protected against damage; this ensures a consistently high removal rate, smooth file surfaces, and an extended working life.

Smooth cut = Cut 2.

With ergonomic 2-component plastic handles.

Application:

Quality file for workshop use with long tool life and high removal rate.

Supplied with:

5-piece set of files with one each **flat, 3-square, square, half-round and round file**.

Technical description

Length without tang	250 mm
Product name attribute	Cut 3
Cut	3
Standard	DIN 7261
Number of individual files	5

Type of product

Engineer's file
