

Garant**Swarf protection 5 pieces, Type: SET****Order data**

Order number	547723 SET
GTIN	4067263029380
Item class	55A

Description**Version:**

Chip guard with clear sight glass. Easy fixing for quick clamping on the straight die grinder with the help of a fastening ring. Targeted chip evacuation for greater protection against chips flying. Includes 5 chip shields.

Application:

For use on all standard straight die grinders.

Supplied with:

Set of 5 swarf protection.

Note:

Does not replace wearing safety glasses!

- **Do not change the guard while the machine is running.**
- **It is recommended that the guard be dismantled when the tool is changed (burr).**
- **If the guard interferes with the work process due to geometrical conditions, it must be removed.**
- **Not suitable for small grinders and thin long-necked grinders.**
- **The tool must not touch the guard.**
