

Husqvarna P 16 kVA

The compact design of P 16 kVA Generator produces 480V 3-phase and 110V simultaneously through the RFL permanent magnet alternator. This powers the PRIME™ range of equipment such as WS 220 wall saw, PP 220, PP 65/70, DM 650/700 drill motor, K 6500/7000 power cutters, K6500/7000 Ring power cutters and K 6500/7000 Chain power cutters.

Reduced vibrations

The multi cushion isolators reduces vibrations.

Easy transportation

The trolley and lifting point enables ease of transportation.

Easy storage

The compact design enables easy storage.

Durable

Thanks to the galvanized frame.
