

METGUARD PRO

The METGUARDPRO METATARSAL PROTECTOR is a safety footwear attachment which protects the metatarsal area of the foot. Extended design compliments steel toe cap and regular safety footwear. The lip of the METGUARDPRO sits on top of the foot at load point. Secure with existing laces or optional straps. Helps protect the upper foot by deflecting and dispersing the impact of falling loads. The METGUARDPRO fits most safety shoes and boots. Provides an economical solution for visitors, temporary workers, clerical, sales people or when there's requirement for metatarsal protection.

- › **Made of extremely durable, lightweight, non-conductive polycarbonate**
- › **Use with existing footwear, transferable between users and shoes**
- › **The METGUARD PRO is practical, comfortable, easy to fit and simple to use**
- › **Extended design ensures more protection to the upper foot and toe area**
- › **Meets minimum impact resistance 75 lbs as specified in ASTM F2412/F2413**
- › **Suitable for use in most workplaces and industries including Mining, Construction, Utilities, Transport, Manufacturing, Storage, Forestry, Retail & Warehousing**
