JOHN LOUIS HOME

Solid Wood Home Storage Solutions

STEP 1: Assembling Drawer

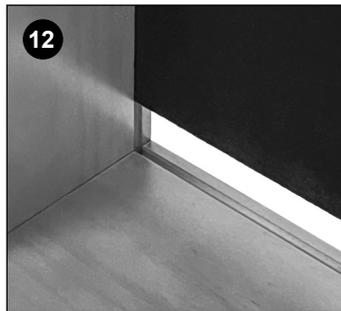

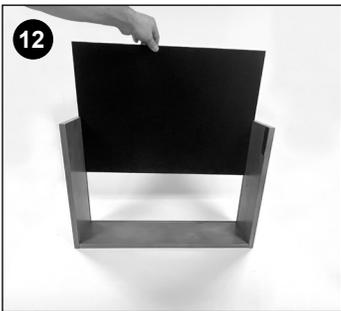

1. Select drawer side (right or left).
2. Insert cam bolt at hole location.
3. Repeat for 2nd location & other drawer side.
4. Select drawer face & insert cam bolts at all hole locations.
5. Select drawer back & insert cam nut into hole location with arrow facing bolt hole.
6. Repeat for all hole locations.

7. Select drawer back & side (right or left).
8. Align the bottom grooves on drawer parts.
9. Insert cam bolts into holes on side of drawer back.
10. Secure by turning cam nuts in clockwise direction until snug.
11. Repeat for remaining drawer side.

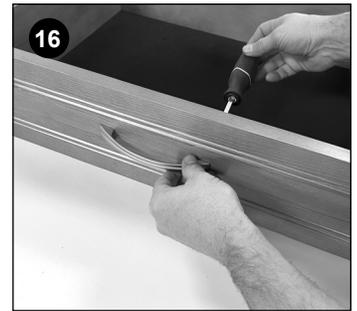

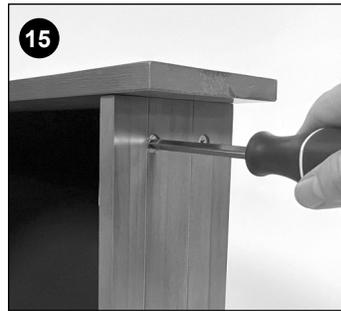

12. Insert drawer bottom into sides making sure bottom is within the grooves.

13. Insert drawer face cam bolts into drawer sides at hole locations.
14. Insert cam nuts into sides with the arrow facing the bolt hole.

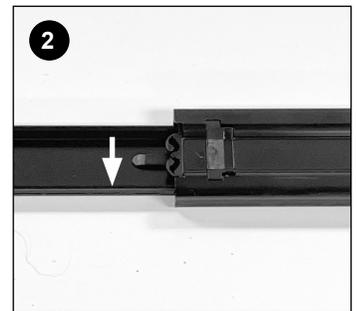

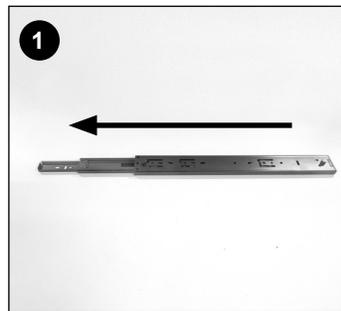

15. Secure by turning cam nuts in clockwise direction until snug.
16. Attach drawer handle to drawer face using machine screws.

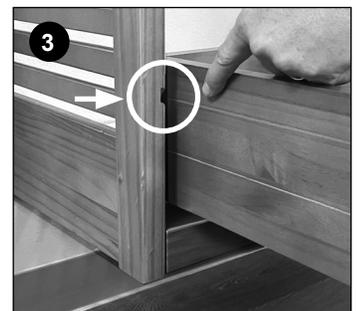

STEP 2: Attaching Drawer Glides

When installing multiple drawers, always start with the bottom placed drawer first. Then continue installing in order to the final top drawer.

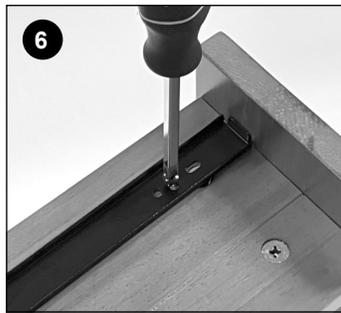

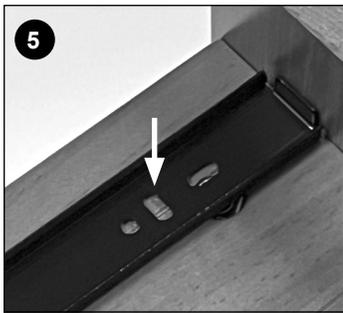

1. Expand drawer glide to full extension.
2. Move lever & pull out glide to separate.

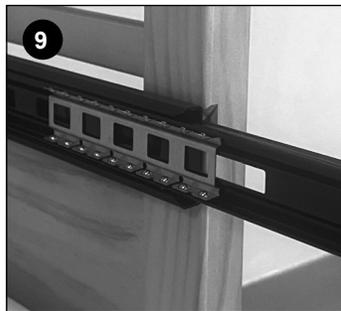

3. Position drawer at desired location to determine glide placement. Glide position is determined by which score mark aligns with tower groove.
4. Place glide at the determined score mark. The open end should face the drawer back.

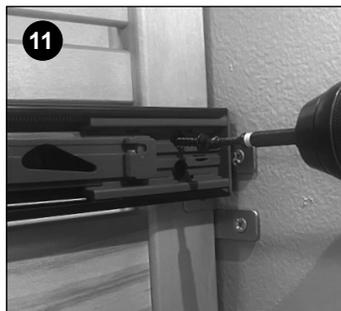

5. Center the screw holes with the score mark.
6. Secure the slide with 1/2 in. screws at the vertical oval locations.
7. Repeat for the 2nd slide.

8. Place the slide into grooves at desired locations. Slide flanges should slot into the tower grooves.
9. Slow close mechanism should be positioned at the back wall and the front of the glide should be flush with the front of the tower rail.

10. Secure the slide with 1 in. screws at back and front location.
11. Repeat for 2nd glide.

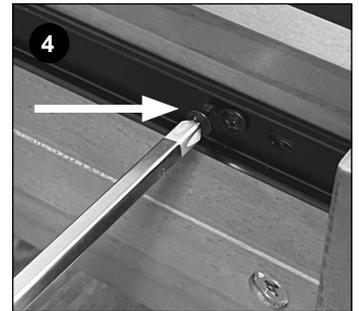

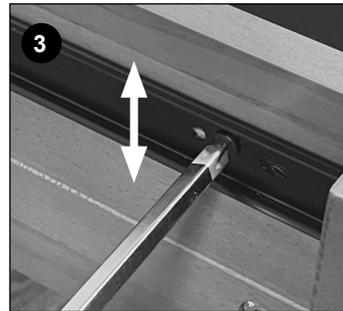

STEP 3: Installing Drawer

When installing multiple drawers, always start with the bottom placed drawer first. Then continue installing in order to the final top drawer.

1. Insert drawer into glides.
2. Open & close drawer to lock glides.

3. Loosen front screw to adjust drawer face up & down position.
4. Use 1/2 in. screw at round hole location to secure drawer face position.
5. Repeat steps for remaining drawer stack.
