

# X-TREME TAPE™

TLS527 1" x 36',1 roll

Need an extreme seal in an extreme environment? Stretch and wrap this self-fusing X-Treme Tape around the leak for an airtight, waterproof seal that withstands high temperatures and voltages.

- Permanently stop air and water, and insulate from electricity, with this military-developed UL-listed tape for high temperatures and extreme conditions; made in the USA.
- Out-tough most situations with this tape's thermal-resistant flexibility from -50°F to 400°F continuously and -80°F to 500°F intermittently, insulation against up to 8,000 volts and tensile strength of 700 PSI even while stretching 300% to conform to nearly any shape.
- Apply easily without the hassle of adhesive since this silicone leak-sealing tape bonds to itself when wrapped under tension.
