

## HAZMAX® Regular Steel Toe Boots

WPL32 Boot, 16" High

Maximum protection against chemical and electrical hazards.

- Designed specifically for safe long-term work in wet, chemical environments
- Seamless, mold-injected PVC/Urethane construction maximizes protection against chemical and electrical hazards
- Non-slip sole for safe footing on slippery surfaces
- Ideal for use by emergency responders, hazmat crews, environmental specialists and site remediation teams
- Exceeds ANSI and CSA standards for dielectric footwear
- Comfortable design is ideal for daily use or equipping employees for a spill emergency
- 16" high with steel toe and midsole protects from contamination and penetration
- Polyester lining and cushioned insoles provide comfort when worn over socks
- NOTE: Men's sizes only; women should order two sizes smaller
