

PIG® Silicone Water Vacuum Barrier

WTR052 Ideal For Capturing Water, One 4" W x 6' L x 2.25" H Section

Attach this vacuum barrier to your wet/dry vac to contain and capture water at the same time.

- Place the barrier on the floor, attach to your wet/dry vac, then squeegee water toward it; more efficient than moving a pump around the affected area
- Works with most standard wet/dry vacs; no special equipment needed (2.5" hose adaptor and end cap included)
- Directing water toward this 6' long barrier is easier than trying to guide it to a floor drain or pump
- Provides a backstop to prevent water from going where you don't want it to
- Eliminates the hassle of priming a pump or having a pump motor fail from dry running
- 11 ports in the bottom of barrier suck water up quickly
- Reusable and cleans easily with soap and water
- Perfect for routine washdowns and minor flooding in hospitals, schools, prisons, property management and much more

Specifications

Dimensions	4" W x 6" L x 2.25" H
Application	Smooth Surfaces
Barrier Dimensions	One 4" W x 6' L x 2.25" H Section
Barrier Height	2.25" H
Brand	PIG
Ideal For	Capturing Water
Color	Black
Install/Deploy Type	Temporary/Removable Barrier
Traffic	Non-Weight Bearing
Sold as	1 each
Weight	6 lbs.
# per Pallet	50
Composition	Vacuum Barrier: Silicone Vacuum Connector: Polyethylene
