

Improve business efficiency • Improve employee workplace safety • Improve patient care & management

3-Section King Size Screen Frame without casters #153950

3 Section Stationary King Screens are made of a durable, lightweight and easy to clean anodized aluminum. These screens are secured to a heavy duty cross linked U shaped base which is stationary. The 3 sections of the frame are attached to each other by a riveted hinge which allows the frame to smoothly fold and unfold as needed. Privacy screen panels, either in economical vinyl or attractive designer fabrics are needed to complete the screen. Two panels are required for each section and are secured by top and bottom snap in rods. Panels are discounted when purchased with the screen. King screens are the largest of the Omnimed privacy screens and are ideal for areas where maximum privacy is a must.

Features:

- Frame utilizes casters for quiet and effortless mobility
- Three sections measures 73³/₄"H x 96"W
- Requires two vinyl or fabric panels per section
- Anodized aluminum construction provides a lightweight and durable solution eliminating the possibility of paint chipping or rusting
- 5 year warranty on Frames
- 90 Days on Screen Panels
