Pass-Thru Narcotic Cabinet #181786 / 181786T

Constructed of durable, heavy duty stainless steel. They provide a convenient way to transfer specimens from patient areas to the laboratory. The adjustable trim flange allows the cabinet to be snugly inserted into walls between 5 to 7.25 inches thick and secures it to the wall surface. The self-closing doors on each side have a strong piano hinge spring closure and key lock security. The locks are keyed the same and come with three keys each. These units are warranted for life & include 1 year on the locks.
