

# IMPULSE HAND SEALER

MODEL KF-210HC

sealersales

Optional Film Roller  
Not Included

10mm Wide Serrated Seal with Cutter

- Impulse sealer - no warm up needed
- Clean and durable
- Optimal seal quality and easy control
- Seals and cuts all types of heat sensitive instrument bags and sterilization tubing
- Equipped with 10mm serrated seal width
- Optional: film roller and work table

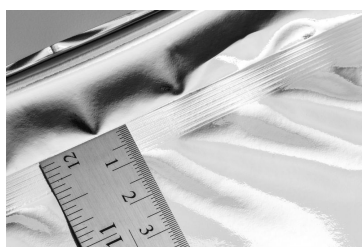

Our **KF-210HC** is an impulse hand sealer designed specifically for sealing sterile bags and tubing. The 10mm wide seal provides the best protection. The sealer is also equipped with a cutting device to make and cut pouches easily. Design is compact to suit any medical, dental, veterinary or laboratory with a limited workspace.

## Easy to Operate

Set the timer. Insert the bag between the seal bars, then bring the sealing arm down to activate sealing. We recommend holding the sealing arm down for an additional second or two to allow the seal to cool. Slide the cutter across material to make poly bags out of poly tubing.
