**Product Selection and Safety**

The complete Brennan electronic and printed catalog materials' content must be reviewed to ensure that the system designer and user make a safe product selection. When selecting products, the total system design must be considered to ensure safe, troublefree performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of Brennan's customer, the system designer, installer, contractor and user. CAD Models, drawings and literature are provided "as-is" without any representation or warranty or fitness for any particular purpose and are for reference only.
