

PC DEFENDER

This water, dust and tamper proof LCD / PC enclosure solution is great cost and space saver and may be mounted on a wall or on a pedestal stand. This computer enclosure includes a durable steel case, a mounting bracket for an LCD monitor, and a clear plastic window that provides a great view of the monitor. The steel case is easily opened for painless access to all computer workstation components for easy maintenance. An external keyboard and mouse tray is standard for this enclosure. This unit is perfect for a Small Form Factor PC or Thin Client and a Flat-Screen Monitor.
