FIRST RESPONDERS REFER TO ERG GUIDE #137

NFPA: Health: 4 Fire: 0 Reactivity: 0 Special: n/a

IMPORTANT SAFETY INFORMATION:

DANGER. POISON. CORROSIVE. CONTAINS CONCENTRATED SULFURIC ACID. CAUSES SEVERE IMMEDIATE BURNS.

May cause eruption of hot acid when poured into drain. Avoid contact with skin, eyes, or clothing. Protect face (especially eyes) and other portions of body when using. Never add water to acid while in container because of violent reaction. **Do not use in the presence of children or pets. Do not use in metal pipes. Do not use before, with or after any other chemicals, or where other drain openers are present.** Can cause dangerous gasses or violent reactions. Use with adequate ventilation. Open windows and use a fan if available (direct fan towards window). Do not breathe fumes. Do not stand over, or look into, the drain (or bowl) while using. Do not pour into standing water.

FIRST AID:

SKIN CONTACT: Remove contaminated clothing and wash before reuse. Immediately flush skin with water for 20 minutes. Get prompt medical attention.

EYE CONTACT: Flush with cool water for 20 minutes and get prompt medical attention immediately.

IF SWALLOWED: Do not induce vomiting. Drink large quantities of water if able. Call a physician or Poison Control Center immediately.

INHALATION: Remove person to fresh air. If irritation or breathing difficulties occur, get medical attention immediately.

Emergency Response Number ChemTel Inc. 1-800-255-3924

SOLUTIONS FOR A CLEANER WORLD™

Use in sinks, bathtubs, showers or toilet bowls.

Safe for: septic and cesspool systems when used as directed.

Do not use in stainless steel sinks, garbage disposals, dishwashers or washing machines.

Do not use a plunger.

Does not eat through roots.

See **discoloration warning** section for more details.

DIRECTIONS FOR USE:

READ ALL LABEL INFORMATION PRIOR TO USING THIS PRODUCT. Do not use without **protective gear**.

Bail to reduce the water level, down to the drain opening.

Remove strainer from drain if possible.

Before pouring, place a **plastic bucket or large, deep, plastic container** under the drainpipe to protect from possible leakage.

After pouring this product into the drain (or toilet), immediately **place inverted dishpan, bucket or other deep plastic container over drain** (or bowl) opening, to protect against possible eruption of drain contents and acid.

PRODUCT OPENING INSTRUCTIONS:

Put container on a flat stable surface.

Carefully remove tamper-evident seal.

While gently pushing down, turn the cap counter-clockwise.

Do not squeeze bottle.

Carefully remove the inner seal.

See chart to determine the amount of product to use.

At arms length, slowly pour product directly into the drain opening (See **DISCOLORATION WARNING**).

If drain does not clear, repeat application.

Not intended to be left overnight.

FIXTURE	AMOUNT	WAIT TIME	FLUSH DRAIN
TOILET (Step 1)	Pour 2 oz into drain	2 minutes	Do not flush
TOILET (Step 2)	Pour 12-14 oz into drain	15 minutes	Flush toilet 2-3 times
SINK, BATHTUB OR SHOWER	Pour 4-6 oz into drain	15 minutes	5 minutes Use cold water

When transporting, handling and storing product make sure it is in an upright position, capped securely and stored in the original plastic bag.

DISCOLORATION WARNING:

This product will discolor porcelain, stainless steel, aluminum, counter tops, plumbing fixtures, acrylic, whirlpool/Jacuzzi tubs and Corian®.

Do not allow product to come in contact with these surfaces.

After bailing out all standing water (prior to any product being used) apply a coat of petroleum jelly to all surfaces to protect from damage.

If you are not sure of the surface, please use petroleum jelly. Do not spill on floors, wood or painted surfaces.

NEUTRALIZATION SOLUTION INSTRUCTIONS:

In a dishpan or bucket mix 1-1/4 cups of baking soda (Sodium Bicarbonate) with 1 quart of water.

Keep baking soda in solution by stirring as needed.

Neutralize only after drain is unclogged.

Keep dishpan or bucket inverted over the drain opening (or bowl) to protect from possible eruption.

For each 4-6 ounces of drain opener previously used to unclog drain, add 1 quart of the premixed **NEUTRALIZATION SOLUTION**.

Gradually pour (over a 15 minute time period) the **NEUTRALIZATION SOLUTION** so that it flows under a dishpan or bucket and into the drain (or bowl).

Keep out of reach of children. Read label before use. Do not breathe vapors. Wear protective gloves, protective clothing, eye protection and face protection.

Wash hands thoroughly after handling. Store locked up. Dispose of contents and container in accordance with local, regional, national and international

ENVIRONMENTAL NOTICE:

It is a violation of California, and possible other, state and local codes to introduce a low or high pH substance such as a drain opener, and other household products, into the municipal sewer system. If you are in an area with these restrictions, you must neutralize this drain opener after using. After drain is unclogged follow the **NEUTRALIZATION SOLUTION INSTRUCTIONS** before flushing into the municipal sewer system.

Store locked up. Dispose of contents and container in accordance with local, regional, national and international regulations.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
