

## CII

TE Internal #: 2-1617527-3

Full-Size Relays, 2 Form C, DPDT, 2 C/O, Silver Cadmium Oxide,  
26.5 VDC Input, 10 A, 26.5 VDC Coil Voltage, 300  $\Omega$  Coil Resistance

[View on TE.com >](#)
[Relays, Contactors & Switches > Relays > Mil-Aero Relays > Full-Size Relays](#)

Full-Size Relay Contact Arrangement: 2 Form C, DPDT, 2 C/O

Contact Base Material: Silver Cadmium Oxide

Full-Size Relay Input Voltage: 26.5 VDC

Full-Size Relay Contact Current Rating: 10 A

Coil Voltage: 26.5 VDC

## Features

### Product Type Features

|                |                                     |
|----------------|-------------------------------------|
| Enclosure Type | Hermetically Sealed                 |
| Coil Latching  | Without                             |
| Product Type   | Relay                               |
| Relay Type     | Military/Aerospace High Performance |
| MOSFET Driver  | Without                             |

### Configuration Features

|                   |         |
|-------------------|---------|
| Transistor Driver | Without |
|-------------------|---------|

### Electrical Characteristics

|  |                           |
|--|---------------------------|
| Actuating System                       | DC                        |
| Vibration                              | 20G's, 10 – 2000Hz        |
| Coil Magnetic System                   | Non-Polarized, Monostable |
| Shock                                  | 50G's, 11ms               |
| Coil Suppression Diode                 | Without                   |
| Coil Polarity Protection Diode         | Without                   |
| Full-Size Relay Input Voltage          | 26.5 VDC                  |
| Coil Voltage                           | 26.5 VDC                  |
| Full-Size Relay Coil Resistance        | 300 $\Omega$              |
| Full-Size Relay Coil Power Rating (DC) | 2340 mW                   |

|                        |            |
|------------------------|------------|
| Coil Power Measurement | Milliwatts |
|------------------------|------------|

|   |        |
|---|--------|
| Full-Size Relay Contact Switching Voltage (Max) | 28 VDC |
|---|--------|

### Contact Features

|                                     |                       |
|-------------------------------------|-----------------------|
| Full-Size Relay Contact Arrangement | 2 Form C, DPDT, 2 C/O |
|-------------------------------------|-----------------------|

|                       |                      |
|-----------------------|----------------------|
| Contact Base Material | Silver Cadmium Oxide |
|-----------------------|----------------------|

|  |      |
|--|------|
| Full-Size Relay Contact Current Rating | 10 A |
|--|------|

### Termination Features

|                  |                       |
|------------------|-----------------------|
| Termination Type | Solder Hook Terminals |
|------------------|-----------------------|

### Mechanical Attachment

|                               |               |
|-------------------------------|---------------|
| Full-Size Relay Mounting Type | Chassis Mount |
|-------------------------------|---------------|

### Usage Conditions

|                             |              |
|-----------------------------|--------------|
| Operating Temperature Range | -65 – 125 °C |
|-----------------------------|--------------|

|---------------------------|-------------------------------|
| Solder Process Capability | Not lead free process capable |
|---------------------------|-------------------------------|

#### Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked. Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the

product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
