## Section 4 First aid measures

### 4.1 Description of first aid measures:

<b>Inhalation:</b>	If fumes, aerosols or combustion products are inhaled , removed from contaminated area. Other measures are usually unnecessary
<b>Skin contact:</b>	If skin contact occurs, immediately remove all contaminated clothing, including footwear. Flush Skin and hair with running water (and soap if available). Seek medical attention in event of irritation.
<b>Eyes contact:</b>	If this product comes in contact with eyes, immediately hold eyelids apart and flush the eye continuously with running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Continue flushing until advised to stop by the Poisons information Center of a doctor, or for at least 15 minutes. Transport To hospital or doctor without delay. Removal of contact lenses after an eye injury should only undertaken by skilled personnel.
<b>Ingestion:</b>	Immediately give a glass of water. First aid is not generally required. If in doubt, contact a poisons information center or a doctor

### 4.2 Most important symptoms and effects, both acute and delayed:

See Section 11

### 4.3 Indication of any immediate medical attention and special treatment needed:

Treat symptomatically

## Section 5 Fire-Fighting measures

<b>5.1 Extinguishing media:</b>	There is no restriction on the type of extinguisher which may be used. Use extinguisher media suitable for surrounding area.
<b>5.2 Special hazards arising from the substance or mixture</b>	Fire Fighting: None known.
<b>5.3 Advice for fire-fighters:</b>	Fire-fighters: Alert fire brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves in the event of a fire. Fire/Explosion Hazard: Noncombustible. Not considered a significant, however containers may burn.
