## RESCUE EXTRICATION GLOVES (46-551)

### EXTREME PROTECTION & SUPERIOR GRIP FOR UNPREDICTABLE EMERGENCY RESPONSE SITUATIONS

ActivArm<sup>®</sup> gloves from Ansell are engineered for the real world extremes of the Fire Service. The new ActivArm<sup>®</sup> Rescue Extrication Gloves help you do your job by increasing grip and providing best-available hand protection from shattered windshield glass, sharp mangled metal, tight confined spaces and hazardous liquids and blood. No matter how demanding the emergency situation, best in-class ActivArm<sup>®</sup> products get the toughest tasks done with confidence.

#### FEATURES:

#### Up to 6X More Whole-Hand Cut Protection

than ordinary rescue gloves. Featuring DuPont<sup>™</sup> Kevlar<sup>®</sup> fibers, these innovative new gloves offer protection for the entire hand—even on the back, wrist and between fingers\*. Ordinary rescue gloves provide only partial coverage, leaving you exposed!

#### Up to 50% More Grip

than ordinary rescue gloves for more secure grasp on tools and equipment during emergency situations.\* Specialized grip materials cover the entire palm.

» RESCUE (NON-BARRIER) 46-551

#### APPLICATIONS:

- > Technical Rescue
- > Vehicle Extrication
- > Structure Collapse
- > Trench Rescue
- > Confined Space
- > High Angle
- > Urban Search & Rescue (USAR)

\* Comparison based on Ansell internal lab cut resistance and grip testing (Jan 2014) under laboratory conditions and/or competitor published data of leading rescue extrication gloves. CAUTION: Products that provide "cut resistance" and "cut protection" or "puncture resistance" and "puncture protection" do not completely prevent or eliminate the potential for cuts or punctures, and are not intended or tested to provide protection against powered blades, serrated or other sharp or rotating equipment. Products that provide "abrasion resistance" or "abrasion protection" do not completely prevent or eliminate the potential for abrasion-related injuries. Products that provide "chemical resistance" or "chemical protection" or "protection from blood-borne pathogens or liquids" do not completely prevent or eliminate the potential for injury due to chemical or blood exposure. Users are encouraged to always use caution and care when handling sharp or abrasive materials, chemicals, or other hazardous or dangerous substances. Any information or data provided is based upon Ansell's current knowledge and understanding of the subject matter, and is offered solely as a possible suggestion for use in making your own decisions or product choices. Product users should conduct all appropriate testing or other evaluations to determine the suitability of Ansell products for a particular purpose or use within a particular environment. Ansell may revise this information as new information, knowledge or experience becomes available. ANSELL DISCLAIMS ALL WARRANTIES OTHER THAN AS EXPRESSLY PROVIDED.
