5700 Volt®
Seating

MORE STYLE, MORE SUBSTANCE - ALL FOR LESS.

Volt seating from the HON Company offers the complete functionality and good looks usually reserved for chairs that cost a whole lot more. Its generously proportioned seat and back cushions are friendly and welcoming to every body. And its wide range of easy-to-use adjustments puts people in control of their own customized comfort.

Comfort and function at your fingertips

1. **Wide seat & contoured back.** Provide all-day comfort allowing greater productivity.
2. **Pneumatic lift.** Raises and lowers chair to achieve best relationship to work surface. Proper seat height reduces pressure on legs and improves circulation.
3. **360° swivel.** Swivels over the base, allowing user to remain seated while retrieving items from the active work zone.
4. **Tilt.** Adjusts seat and back to a reclined position for all-day comfort. Pivot point located above center of chair base.
5. **Synchro-tilt.** Allows the back to recline twice as fast as the seat. As the back reclines, the seat remains relatively level, promoting leg circulation and ergonomic function.
6. **Tilt tension.** Adjusts the amount of resistance when reclining to accommodate individual weight and work styles.
7. **Tilt lock.** Locks the chair in an upright position for constant back support when not reclining.
8. **Optional adjustable height arms.** Raises and lowers arms, reducing shoulder, neck and back strain.
9. **Extended height.** Offers the functional flexibility to accommodate workers in the standing-height workstations, high tables and counters.
