

## TIBLOC B01

Emergency rope clamp

- Extremely lightweight and compact: it is an efficient piece of basic equipment for a worker on a rope or a rescue worker
- Versatile: this rope clamp is easy to use with a locking carabiner for ascending ropes or for setting up hauling systems (progress capture)
- Equipped with teeth and a self-cleaning slot, it can be used on dirty or icy ropes
- Attachment hole for keeper cord
- For use on single 8 to 11 mm ropes with a locking carabiner having a 10 to 12 mm round or oval cross-section, such as the Am'D, WILLIAM, etc.
- Certification: CE EN 567
- Weight: 40g
