

AMERICA'S HEROES TRUST ESS

"In Southern Afghanistan on 07 October 2012, while kneeling and interrogating a possible IED location, the IED was triggered, and sent the majority of the blast towards my torso and head. Despite the relative proximity to the blast I only received minor facial wounds. I owe my eyesight to your product, as the ESS Crossbows I wore took the majority of sand, shrapnel, and debris. Thank you for protecting my platoon and I, and all other warfighters serving our country." — PSG Kelly Rogne

90% OF EYE INJURIES ARE PREVENTABLE*
WHAT'S PROTECTING YOUR EYES?

ESS ballistic lenses can withstand a shotgun blast.
 (Remington 12-gauge, #6 shot from 10 meters)
