B. Mid Back Work Chair with Mesh Seat

HVL552

Dimensions:

29d x 27w x 41.25h

Comfort & function controls:

1,2,3,4,6,7

Comfort and function at your fingertips

1. **Pneumatic lift.** Raises and lowers chair to achieve best relationship to work surface. Proper seat height reduces pressure on legs and improves circulation.
2. **360° swivel.** Swivels over the base, allowing user to remain seated while retrieving items from the active work zone.
3. **Tilt tension.** Adjusts the amount of resistance when reclining to accommodate individual weight and work styles.
4. **Tilt lock.** Locks the chair in an upright position for constant back support when not reclining.
5. **Tilt.** Adjusts seat and back to a reclined position for all-day comfort. Pivot point located above center of chair base.
6. **Synchro-tilt.** Allows the back to recline twice as fast as the seat. As the back reclines, the seat remains relatively level, promoting leg circulation and ergonomic function.
7. **Adjustable height arms.** Raises and lowers arms, reducing shoulder, neck and back strain.
