Product Description Sheet CA (Cyanoacrylate) Volumetric Hand Pump

Part # 1506477

North American Engineering Center, August 2011

PRODUCT DESCRIPTION

The Loctite® CA (cyanoacrylate) Volumetric Hand Pump provides precision repeatable dispensing of cyanoacrylate adhesives with finger tip control. Allow placement of each and every adhesive drop exactly where required. This volumetric hand held dispenser has six (6) different pre-set shot size settings that can be changed by a simple stroke adjustment mechanism. Requires no pneumatics, battery or electrical power.

PRODUCT FEATURES

- Precision dispensing of cyanoacrylates from 20 gram or 1 ounce bottles.
- Easy pull trigger and priming design.
- Light-weight, ergonomic design ensures minimal hand fatigue.
- Six multiple pre-set dispense settings provide a range of repeatable shot sizes.
- Adjustable range of 0.009 – 0.002 grams of adhesive.

Volumetric Hand Pump Includes

- Hand Pump
- Operating Manual
- Sample Needle Kit (6 pcs.)

Technical Data

- Dimensions: 7.5" (H) x 7.75" (W) x 2.5" (D)
- Weight: 282 grams

Accessories and Spare Parts (not included):

- Fluid element assembly; black; P/N 1506478
- Fluid element assembly; clear; P/N 1506479
- Dispense Needles.
 - 15 gauge, ½" long, amber, (50 pk) Item # 98396
 - 16 gauge, tapered tip, gray, (50 pk) Item # 97221
 - 18 gauge, ½" long, green, (50 pk) Item # 98398
